World

WORLD CHAIR FEATURES

Pivoting backrest

Extra backrest motion automatically adjusts to changing needs of the spine. Adapts automatically to provide additional lumbar support as needed.

Self-adjusting recline

Revolutionary mechanism-free design harnesses the laws of physics and the user's body weight while automatically providing appropriate support and resistance regardless of user's size. No unnecessary recline locks or tension springs to set or adjust. User maintains near-constant eye level during recline.

Form-sensing mesh technology

Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for an automatic, customized fit. No external lumbar devices to adjust, break or lose. Low-abrasion mesh protects clothing.

Armrests

Adjustable armrests connect to the backrest instead of the seat to stay with the body during recline.

Casters

Standard casters for hard surfaces

WORLD

The World chair provides mechanism-free recline action creating automatic balanced support at all times. Featuring a black mesh back, upholstered seat and adjustable duron arms – the World offers a totally unique sitting experience.

Dimensions

Overall low back 25 3/4" x 15 7/10" - 18 1/4"D x 37"H
Seat ht. range 16 2/5" x 21 4/5"

Item No. 122W1B1M10 _____ \$649.00

FRAME COLOR: BLACK FABRIC: CANNOT USE VINYL
