Ithaca Ultra

(Mid Back - shown)

ITHACA ULTRA CHAIR FEATURES

Lock lever

To lock the back in one of three angles, move to desired position. Then push in lever at the right rear of the seat. To return the back to its free-floating position, pull out lever.

Seat height adjustment

To lower height while seated, lift lever at the right front of the seat. To raise the height, remove your weight from the seat while lifting the lever.

Tilt tension

The seat tilt tension knob is located directly under the front of the seat. To increase tension, turn the dial clockwise. To decrease tension, turn the dial counter-clockwise.

Back height adjustment

(Available on midback model only). Adjust the back height by grasping the back with both hands. In either a seated or standing position, raise or lower the back to the desired height. To lower the back, first raise it to its highest position and then lower it to desired level.

Height and width adjustable arms

To adjust arm height, pull up on the lever on the outside of the arm. To adjust arm width, push up on the small tab underneath the arm and move the arm inward or outward.

Seat depth adjustment

To adjust seat depth, raise the lever at the left front of the seat. Then, slide forward or back to the desired position and release the lever.

ITHACA ULTRA CHAIR

Available as a mid or high back chair, this chair features conforming mesh backing, seat height and dept control, a seat slider and adjustable T-arms.
